GIORGIO ROTA BEST PAPER AWARD FOR YOUNG RESEARCHERS

13th edition

CALL FOR PAPERS 2025

The **Centro Einaudi** with the support of **Fondazione CRT** launches the 13th annual GIORGIO ROTA Best Paper Award, established to honour the memory of Giorgio Rota (1944 - 1984): a leading Italian economist born in Turin, who was in charge of economic research at the Centro Einaudi for many years.

The Award also relies on a well-established collaboration with the [Department of Economics and Statistics 'Cognetti De Martiis'](#) (ESt, University of Turin) that has been enriched, since the tenth edition of the Award, with the participation of the **Department of Economics, Social Studies, Applied Mathematics and Statistics** ([ESOMAS](#), University of Turin). Both departments take part in the **Scientific Committee** of the *Giorgio Rota Best Paper Award*, in memory of the scientific contribution Giorgio Rota gave when he was a Professor of Political Economy at the University of Turin and a member of the Prato Institute of Economic and Financial Science (later incorporated into the newly constituted ESOMAS Department).

The [Centro Einaudi](#) is an independent non-profit institute based in Turin. Its mission is to conduct independent research, providing policy recommendations in the fields of political economy, welfare policies, government and market competition.

Since 1963, the Centro Einaudi has been a beacon of liberalism and one of the most influential Italian think-tanks. Many of its members hold prominent positions in academia, government, journalism and business.

Established in 1991, [Fondazione CRT](#) is the third largest Italian philanthropic institution by asset. It has granted a total of more than EUR 2 billion for over 42,000 projects in the fields of art and culture, research, youth training, fight against poverty, improvement of the quality of life of people with disabilities, environmental protection, and innovation. In addition, it has entirely redeveloped the OGR Torino, transforming it into an international center of technological and cultural innovation.
